MANUAL FOR ENTRANCE EXAM MUG 2021

In brief:

1. Is **better** to have Zoom application on your device – according to our experience connection is better and there is less problems to share the screen (see the section below). However if you don't have Zoom application – simply copy a link to your browser after few seconds a new window will pop up:

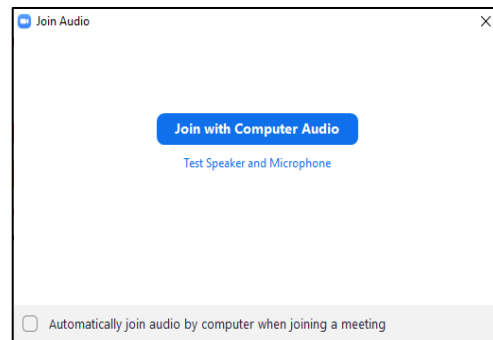

Provide your full first and last name
(like in application form/**passport** e.g. John Smith)
and press (**Join Meeting**).

2. A new window will pop up
- first click on (**Join Audio**)

3. If you already tested speaker and microphone you can click on (**Join with Computer Audio**), if not you can check them now.

4. Once you join the meeting you should click on the icon (**Start Video**).

The camera must be on for the entire duration of the exam.

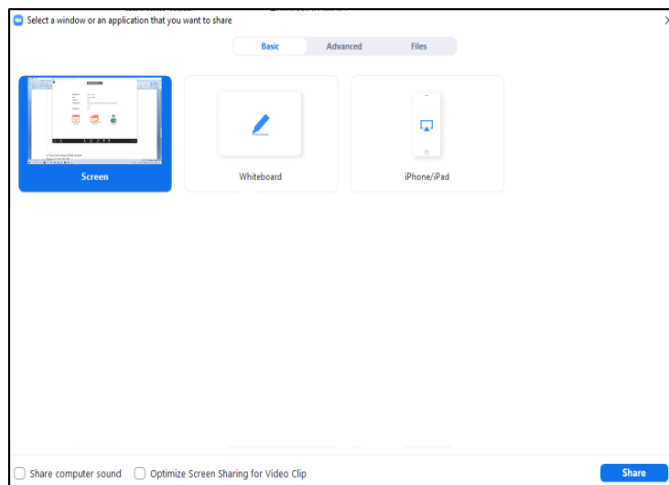

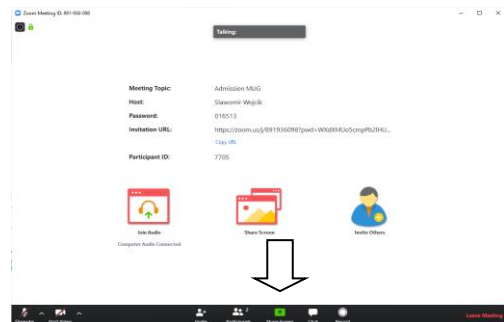

Lack of video transmission will result in the candidate being annulled.

5. Next step is (Share Screen) option.

Please select an option screen and click on (**Share**). This option must be enabled for the duration of the exam.

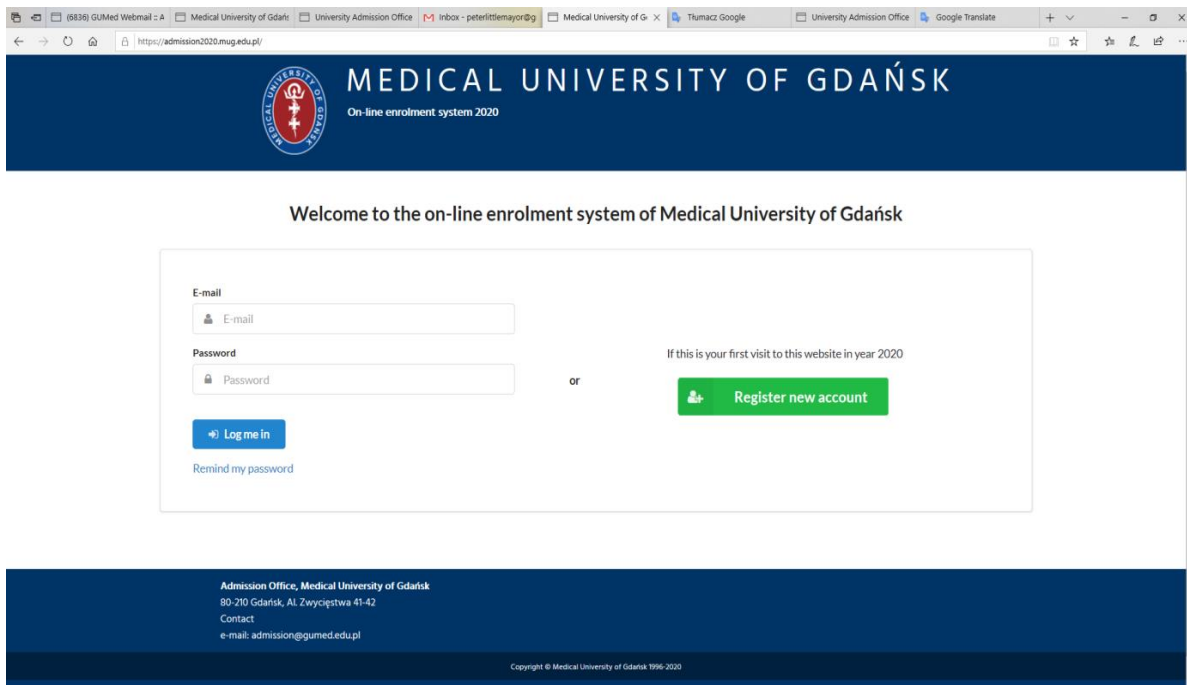

Since the candidate **may only have a test window during the exam** and **may not use any other computer applications and screens**, the examiners will observe the monitors of the exam participants.

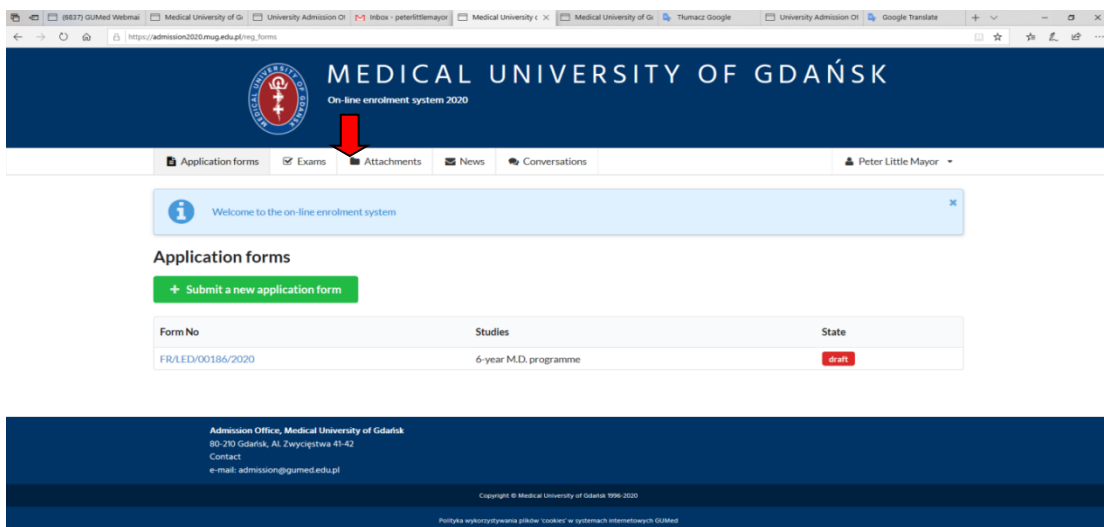

Important information - Some types of devices require special settings to simultaneously enable the transmission of the camera image (exam participant's image) and the desktop image. In our experience, especially I pads and I phones. Please check at least one day before the exam if your device allows simultaneous transmission of information from the camera and the desktop.
